

## Two Postdoctoral Positions

Michigan State University in East Lansing has established a ***Strategic Partnership*** on ***Plant-Inspired Chemical Diversity*** (<http://bit.ly/2tul0Tp>). An interdisciplinary group of investigators is applying genomic approaches to generate libraries of novel cyclic peptides and terpenoid compounds and will carry out anti-cancer and anti-microbial screening. Two highly motivated, collaborative postdoctoral investigators are sought to join this team. A recent PhD in Chemistry, Biochemistry, Pharmacology, Microbiology or a related field is required. Expertise in molecular biology, bacterial protein expression, chemical analytical methods (NMR and mass spectroscopy), and/or high-throughput assay development and implementation is desired.

Please send a CV, Statement of Research Interests, and names and contact information for three references to Dr. Richard Neubig, Professor and Chair, Pharmacology and Toxicology, Michigan State University c/o [Bradley.Robinson@hc.msu.edu](mailto:Bradley.Robinson@hc.msu.edu).

*MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through a diverse workforce and inclusive culture that encourages all people to reach their full potential. The University actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities.*
